

Minority variety recovered recently, not cultivated anywhere else in the world.

Late budding and with a short cycle, it produces very small grapes and bunches. It produces high quality wines with very strong colours and aromas.

 **maturana**

new
 American oak
6 months

 3 months minimum

Alc. 13% Vol.

 14 °C

 intense purple colour

 spicy notes (pepper) and black fruit predominate over an attractive vanilla

 robust and very well integrated tannins create a wine that is very elegant, strong, persistent and very mineral, providing enormous body and creaminess

It macerates and ferments in a stainless steel tank at a controlled temperature of 5 °C for 10 days. The wine ages for 6 months in the barrel.
